

BILL MCKIBBEN IS COMING TO AUSTRALIA

DO THE + MATHS TOUR

Acclaimed author and climate change activist Bill McKibben is coming to Australia in 2013 to draw attention to our nation's plan to massively expand coal mining and exports -- one of the few things that would take our planet beyond the point of no return.

Come and hear Bill's clear-eyed view of the global warming maths and learn what you can do to subtract from the terrifying total!
